

# Craft Instructions for Cardboard Tetrabolos

---

## *Preliminary*

---

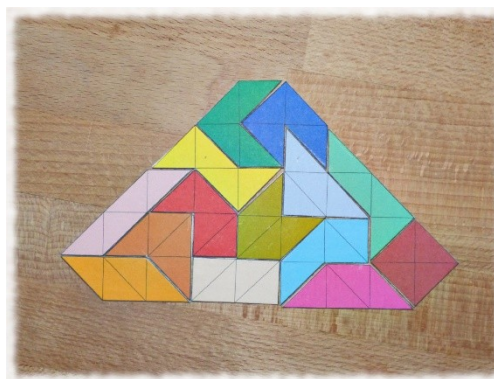

be needed:

1. A pair of scissors
2. A glue stick
3. A piece of cardboard
4. Paper templates for the tetrabolos

To 4: There are paper templates available for download in different colors on the download page of [www.pentoma.de/en/](http://www.pentoma.de/en/). Tetrabolos are used on both sides when playing. Each template therefore consists of 2 sets of tetrabolos, one for the front and one for the back.

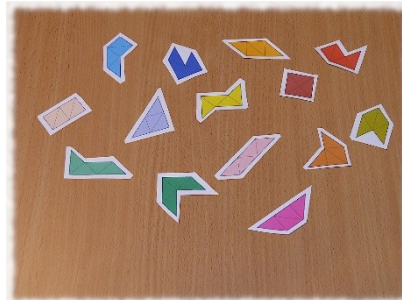

You can also download this handicraft manual and many figures that can be laid out with the handcrafted tetrabolos from [www.pentoma.de/en/](http://www.pentoma.de/en/).

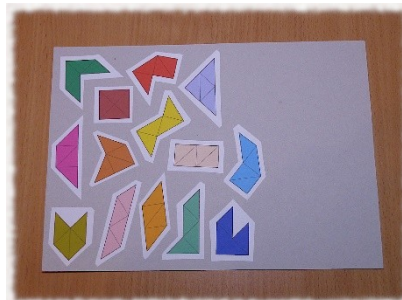

## Procedure

---

1. Cut out one set of printed paper tetrabolos. A 1 to 2 centimetre wide margin can be left standing.

- 
2. The 12 paper tetrabolos are glued onto the cardboard.

- 
3. The glued tetrabolos are cut out, again with margin.

- 
4. Next, the tetrabolos are cut out exactly.

- 
5. Finally, the paper tetrabolos of the 2nd template sheet are cut out exactly and glued to the back of the cardboard tetrabolos.
